## STRATEGIC PROBLEM SOLVING

Feeling stuck? How about trying a different approach? Here are some of our favorites HERE problem-solving strategies. PICK A START POINT. Anywhere is good. Sometimes, the hardest part is just beginning. VIEW IT LIKE A PUZZI This mindset shift can make tackling problems a bit less daunting. **GET CURIOUS** Ask questions. This can open up new avenues of thought and potential solutions. MAKE IT BITE-SIZED Break down the issue into smaller, more manageable parts. Focus on one piece only. **BE A DRAGONFLY** They view the world with a 360degree perspective. Try to see the problem from all sides. BE FLEXIBLE Be open to changing your approach based on what you're learning as you go. **SOLVE & STORY** Follow the story behind problems. Understanding the narrative can provide potential solutions. COLLABORATE Engage others in your problemsolving efforts. Two heads, or more, are better than one. 80/20 RULE

Look for success, not perfection.

Focus on the actions that will yield the most significant results.
